

# Dr Careaga Is Changing The Standard Of Care And Introduces The No Drain Tummy Tuck

---

*By incorporating the use of TissuGlu® into his procedures he is eliminating the need for painful drains and sutures.*

MIAMI, FLORIDA, UNITED STATES, August 15, 2016 /EINPresswire.com/ -- Dr Careaga continues to keep his practice at the forefront of medical advances by being the first to introduce the “No Drain Tummy Tuck” as the new standard in abdominoplasty. [TissuGlu®](#) surgical Adhesive is the synthetic surgical adhesive for internal use, setting it aside from other tissue adhesives. This breakthrough technology is ten times stronger than fibrin-based sealants and has enabled Dr Careaga to completely eliminate the need for painful drains otherwise used after a tummy tuck. TissuGlu® is slow drying allowing the Doctor time to work with all the different layers of tissue in your abdomen to ensure there are no pockets that could otherwise require the need for drains.

The makers of TissuGlu® identified Dr. Careaga as a key opinion leader in the field of abdominoplasty (tummy tuck) procedures and have named him their first Clinical Advisor for Florida. In this role, Dr. Careaga will help educate other plastic surgeons across the country to ensure the safe and effective use TissuGlu® Surgical Adhesive in the [drainless tummy tuck](#) approach.

For patients considering this new “No Drain Tummy Tuck”, it signifies major improvements from the traditional tummy tucks by providing less downtime, a significantly quicker return to normal activities, less scarring by eliminating the drains, eliminating the pain associated with the use and removal of drains as well as a reduced the risk of bacterial migration and infection commonly seen with drains. This advancement will soon change the standard of care and will pioneer new applications and uses in medical procedures.

Dr Careaga’s technique using TissuGlu® elevates the tummy tuck experience like never before with this advanced technology and is also doing away with internal sutures that may produce scaring or dimpling of the skin. When it comes to surgeries and procedures with large incisions, this is a giant leap forward in medicine, ushering in a multitude of new possibilities.

If you are considering a tummy tuck and would like learn more about the “No Drain Tummy Tuck” schedule your consultation at Careaga Plastic Surgery by calling 305.960.7511 located on the third floor at 564 SW 42 Ave Miami, Florida 33134 and to get social follow him on Facebook, Instagram and Twitter.
