IT Governance offers free certified GDPR training and books with a range of ISO 27001 documentation toolkits

ELY, CAMBRIDGESHIRE, UNITED KINGDOM, August 17, 2016 /EINPresswire.com/ -- IT Governance, the leading provider of data protection, cyber security and ISO 27001 expertise, is delighted to offer General Data Protection Regulation (GDPR) books and certified training free with a range of ISO 27001 toolkits.

Alan Calder, the founder and chief executive officer of IT Governance, said: "The increase in the number of cyber threats and the GDPR coming into force in 2018 creates an urgency for organisations to align with the best practice for information security and meet the Regulation's requirements. As the bar for cyber security raises, organisations will need to use their budget, resources, skills and time effectively to protect against cyber threats while achieving compliance with both the ISO 27001 standard and the Regulation."

Organisations looking to achieve compliance with the GDPR and fulfil ISO 27001's documentation obligations can take advantage of IT Governance's offer, which is available until 26 August 2016.

IT Governance's offer comprises a free place on the Live Online Certified General Data Protection Regulation Foundation training course when organisations purchase any of the following ISO 27001 toolkits: No 1 ISO 27001 Complete ISMS Toolkit, No 2 Integrated ISO 27001 ISMS Toolkit and No 3 Comprehensive ISO 27001 ISMS Toolkit.

The Certified EU General Data Protection Regulation (GDPR) training course provides a comprehensive introduction to the GDPR. The Live Online session covers the essential GDPR background and terminology, data subjects and their rights, marketing requirements and dealing with subject access requests, international data transfers, and the implementation path to GDPR compliance.

Organisations looking to use internal resources to compile their ISO 27001 documentation can opt for the ISO 27001 ISMS Documentation toolkit, which provides customisable documentation templates and expert guidance from ISO 27001 auditors. Until the offer ends, this toolkit comes with a free copy of EU GDPR: A Pocket Guide, which introduces the new Regulation and helps consolidate its legalese into understandable guidance.

IT Governance's ISO 27001 documentation toolkits have been developed by expert practitioners to provide invaluable resources that support ISMS implementation in a time- and cost-effective manner.
