

# ITPBureau.com Strengthens Information Resource with Key Additions

*Over the past 3 months, Identity Theft Protection Bureau has added numerous reviews including some key players in the space both new and old.*

PHOENIX, ARIZONA, UNITED STATES, August 19, 2016 /EINPresswire.com/ -- [www.ITPBureau.com](http://www.ITPBureau.com) (ITPB) launched in late 2015 with the intent and mission of becoming the number 1 informational resource for identity theft protection. Their plan is simple says their CEO, "we're going to put together every last bit of information that a consumer needs to know in order to make a great decision on how to protect their identity." Since their launch in December 2015, ITPB has conducted and published over 60 reviews of identity theft protection providers including major companies like LifeLock (<http://www.itpbureau.com/reviews/lifelock/>), Complete ID (<http://www.itpbureau.com/reviews/costco-identity-theft-protection/>), and Identity Force (<http://www.itpbureau.com/reviews/identityforce/>).

ITPBureau.com is also very nimble and reacts quickly to newcomers in the market. The recently launched identity theft protection company Civic has already been tested, vetted, and reviewed by ITPB and they have only been in the market since spring of 2016. You can find more information on [Civic identity theft protection](#) here.

An additional benefit that ITPB offers its users in addition to the free advice is that many of the companies reviewed on the website also offer discounted enrollment fee for signing up as a new customer. Discount offers are always available through coupons sites or helpful information sites like this [Identity Guard website](#), but ITPBureau puts everything in one place to save you the time of fishing around for discounts that may or may not exist.

As identity theft becomes a more and more prominent risk that increases year over year, having identity theft protection and more importantly the right identity theft protection for you becomes a necessity rather than a luxury. ITPB's resource of [identity theft protection reviews](#) helps customers find what their looking for and takes the stress out of an already stressful situation.

ITPBureau.com's mission is to help its users find the best possible identity protection. ITPB's reviews and ratings are designed to provide pertinent information that assists in the decision making process for its users. Each company has been researched thoroughly to unveil all aspects of their service that are relevant to customers. Since identity theft protection is a relatively new service and customers are unsure exactly what they need, ITPBureau.com is a great tool to take the guesswork out of making the very important decision of protecting your personal information.
