Gobbo Games launches Riders of Asgard on Steam Greenlight.

DURBAN, KWAZULU NATAL, SOUTH AFRICA, August 20, 2016 /EINPresswire.com/ -- [Gobbo Games](http://GobboGames.com), an Independent Games Development company and creators of board games operating from offices in Durban, KwaZulu Natal, South Africa, has launched their game [Riders of Asgard](http://RidersofAsgard.com) on [Steam Greenlight](http://SteamGreenlight.com).

Riders of Asgard is a fun and challenging Viking BMX game, but is so much more than your average run-of-the-mill, Viking BMX game. It's a historically correct Viking BMX game, with historically accurate Viking bikes and locations.

Gobbo Games, whose goal has always been to make high quality games that are price friendly and provide maximum entertainment value, has gone the extra mile in providing a polished demo of the game that can be downloaded from the website: <http://www.ridersofasgard.com/>

The polish of Riders of Asgard can be seen in the official trailer, which shows the game in all its glory while being accompanied by music that has been written for the game by Karl Muller Sound and Music Design. incredibly addictive game on Steam Greenlight by voting for them here: <http://steamcommunity.com/sharedfiles/filedetails/?id=746115655>

Gobbo Games has indicated that there will be multiplayer support as well as providing native support for Windows, Linux, and Mac users. The demo also shows off the visual upgrades that can be unlocked by using the gold you earn while performing tricks and hints at new levels being released in the final version.

There's no denying that the game is definitely polished looking and the physics look intact, which is one of the most important aspects to a physics-based stunt-racer like this.
