

Andi Lew, Miss World Australia and OXYMAX Wellness Journey continues

MELBOURNE, VICTORIA, AUSTRALIA, August 21, 2016 /EINPresswire.com/ -- Andi has been mentoring [Miss World Australia](#) Madeline Cowe on the importance of nutrition and exercise. Ms Lew's extensive wellness experience spans over 13 years, with 6 books to her credit. [OXYMAX](#) partnered with Ms Lew in July to promote and encourage wellness with their existing and new clients and to date we have been impressed. Ms Lew decided to take on a "ditch the coffee" challenge recently by replacing caffeine with OXYMAX each morning. Andi has felt that her training has been better without the nerve stimulant of a coffee.

By taking 5-10mls of OXYMAX Concentrate in your morning juice or smoothie may provide you with more energy, brain clarity, endurance whilst training and help with post recovery after your workout, it may also assist with your metabolism and help eliminate toxins. The high level of bioavailable oxygen in the ionically activated water can be available to your red blood cells for cellular metabolism and packed with 84 trace minerals no wonder why Andi loves taking it.

Recently [Andi Lew](#) was in Cairns with the beautiful

Miss World Australia Madeline Cowe on a photoshoot location, Ms Lew gifted Madeline with a bottle of OXYMAX given Lew's experience taking it and hoped that Ms Cowe would benefit from its wellness properties.

Ms Cowe was quoted as saying that "she was excited to try OXYMAX".

OXYMAX looks forward to hearing all about Miss World Australia Madeline's wellness journey.

Why don't you come and follow us as we look forward to enhancing your wellness journey.
