

Global & US Sodium Tungstate Market by Applications and Channel Participants Forecast to 2027

Global & US Sodium Tungstate Market Research Report By Application (Catalyst, Permanent Chemical Modifier) By Channel Participants - Forecast 2016-2027

PUNE, MAHARASHTRA, INDIA, August 23, 2016 /EINPresswire.com/ -- Overview

Sodium Tungstate, with the formula Na_2WO_4 is an inorganic compound. It is the sodium salt of tungstic acid, which is colorless or white color crystalline powder and water-soluble solid. Sodium Tungstate acts as analytical reagent, catalyst, fire proofing agent. Sodium tungstate can be used in manufacturing various chemical elements such as tungsten salts, metal tungsten, tungsten acid, dyes. It is a medium that helps in conversion of tungsten ores to the metal.

“

The Major Key Players are Kat-Chem Ltd, Ganzhou Grand Sea W& Mo Group Co., Ltd, Yuanhang Tungsten, HCstarck, Taizhou BangDe, Ningxiang Changyi etc.”

Market Research Future

Applications

Sodium Tungstate is an inorganic compound that is applicable in multiple fields such as chemical industries, medical, metal industries, glass industry, and textile industry and many others.

In medicinal field, it is applied for treating as an anti-diabetic and anti-obesity agent. When administered orally sodium tungstate acts as an effective ant diabetic agent. Sodium tungstate have dual effects of on adipocyte biology i.e. stimulation of cellular oxygen consumption and

inhibition of adipogenesis.

Sodium Tungstate are used in manufacturing various types of heteropoly acid color lakes that are used in printing inks, plants, waxes, glasses, and textiles.

Market Influencer

Globally, [Sodium Tungstate market](#) is growing rapidly due to its multiple applications and uses in wide range of industries. Mainly sodium tungstate deals with industries that are involved in chemicals. As per studies the market for chemical products is expected to grow of about 5.6 trillion euros by 2035 resulting there is huge stability for chemical industries. As there is high growing rate for chemical industries in the world simultaneously there is growth in Sodium tungstate market.

Market Segmentation

The Sodium tungstate market is divided into following segments

Segmentation by Application: - Anti-diabetic Agent Anti-obesity agent Catalyst Permanent chemical modifier

Segmentation by Channel Participants:- Research laboratories Textile industry Chemical industry Metal industry Glass industry Medical industry Others

Global & US Sodium Tungstate Market: Key Players

Some of the prominent key players in the global & US Sodium Tungstate market are as Kat-Chem Ltd, Ganzhou Grand Sea W& Mo Group Co., Ltd, Yuanhang Tungsten, HCstarck, Taizhou BangDe, Ningxiang Changyi etc.

Market Research Future introduces about 2016 Global & US Sodium Tungstate Market during the forecast period 2016-2027 which mainly includes the growth drivers, trends and restraints and how the market will grow in the future across the globe. In this report, Market Research Future has focused on the current market scenario which includes market segmentation, market dynamics, and competitive landscape along with company profiles.

The reports also covers brief analysis of Geographical Region includes:

Americas

- North America (US, Canada)
- Latin America (Argentina, Brazil, Mexico, Rest of LATAM)

Europe

- Western Europe (Germany, France, Italy, Spain, U.K, Rest of Western Europe)
- Eastern Europe (Poland, Russia)

Asia – Pacific

- Asia (China, India, Japan, South Korea, Rest of Asia)
- Pacific Countries (Australia, New Zealand)

Middle East & Africa

- Middle East (Saudi, Qatar, UAE)
- Rest of Middle East (Africa, South Africa, Rest of Africa)

Every report of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report also gives a broad study of the different market segments and regions.

[Global Formic Acid Market Research Report- Forecast to 2027](#)

The global formic acid market has seen a notable growth over the past few year due to its contribution towards food preservatives and animal feeding. And it has been witnessed during the forecast period the market growth will remain high. Formic acid is one if the major chemical compound which reduces food from getting perish. Even though there are certain applications such as rubber, leather, pharmaceuticals, chemicals, agriculture and few others where the demand of formic acid is intense.

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
