

# Cascade Acquires Panther Technologies and GeoSierra Environmental - Bolsters Remediation Treatment Capabilities

WOODINVILLE, WASHINGTON, UNITED STATES, August 24, 2016 /EINPresswire.com/ -- Cascade Environmental Holdings, LLC (Cascade), the leading provider of environmental drilling, high resolution site characterization, and in situ remediation

applications is pleased to announce the acquisition of Panther Technologies, Inc. (Panther) including the assets and proprietary technologies of GeoSierra Environmental, Inc. (GeoSierra).

Headquartered in Medford, NJ, Panther provides in situ and ex situ remediation technologies to environmentally contaminated sites for industrial clients and consultants. The company's remediation services include conventional and innovative soil and groundwater remediation, hazardous and non-hazardous waste management and disposal, industrial landfill capping and lagoon closures, and mechanical system installations.

Panther's expertise in the field implementation of chemical oxidation, reduction, and technology programs combined with GeoSierra's patented ground water reactive wall technology is a natural fit

*Tim Smith, CEO*

"Panther's expertise in the field implementation of chemical oxidation, reduction, and technology programs combined with GeoSierra's patented ground water reactive wall technology is a natural fit," said Tim Smith, CEO of Cascade. "Panther brings a unique approach to in situ and ex situ remediation of both organics and inorganics which complements Cascade's

Combined Remedies™ approach by further expanding technologies available to help clients achieve their remediation objectives," said Smith. "Every remediation situation is unique. Offering a full range of investigation and remediation capabilities allows Cascade to truly collaborate with our clients."

Terms of the agreement were not disclosed.
