IT Governance offers savings on best-value ITIL Foundation training course for a limited time only

ELY, CAMBRIDGESHIRE, UNITED KINGDOM, August 23, 2016 /EINPresswire.com/ -- IT Governance, the leading provider of IT governance, risk and compliance products and services, is offering 25% off places on its ITIL Foundation training course to help organisations achieve best practice for effective IT service management.

The IT Infrastructure Library (ITIL) is a best-practice framework based on the consolidated experience of organisations worldwide for managing IT services to meet the organisation's needs. The ITIL Foundation training course meets the quality standards set by ISO/IEC 20000.

Alan Calder, the founder and chief executive officer of IT Governance, said: "Organisations looking to offer high-quality services while aligning IT with organisational goals and delivering value can do so by undertaking the ITIL Foundation training course."

The ITIL Foundation training course delivers an understanding of service management as a practice, outlining the purpose of the ITIL service lifecycle, the key ITIL principles, models and definitions, and the importance of ITIL competence and training. The course provides awareness of selected processes, functions and roles, and prepares them for the ITIL Foundation examination.

Alan Calder continued: "Although most approved ITIL courses take three days, IT Governance's fully accredited ITIL Foundation course promises to deliver the course and exam in two days, with excellent pass rates. The course offers a cost-effective and time-efficient solution that allows service management professionals to gain recognition of their ITIL and service management competency".

Individuals who require a basic understanding of the ITIL framework, or IT professionals working within an organisation that has adopted ITIL, are encouraged to take the ITIL Foundation training course. The two-day course includes the ITIL Foundation examination, which comprises 40 multiple-choice questions.

The next ITIL Foundation classroom training session is available on 20-21 September. In addition to the 25% discount, the course includes a free copy of the ITIL Foundation Essentials textbook and the ITIL Foundation exam.
