Business Overview

Frozen Fruits and vegetables is the process where the eatables are initially blanched, boiled, and then frozen with the hours being picked. This process helps in keeping the eatables fresh taste and nutritional value. Frozen produce is always available around the year, and is cheaper than fresh.

The process of freezing the fruits and vegetables begins when they are at their peak ripeness as the results are most nutrient-packed.

Frozen Fruits and vegetables Applications

Frozen Fruits and vegetables are mainly used in Super Markets, Grocery, etc. The frozen fruits and vegetables are healthy and contain vitamins, minerals and antioxidants. These frozen fruits and vegetables help in protecting against heart diseases.
