

Lithium-ion Battery Market Regional Analysis, Market Share and Forecast to 2027.

Global Lithium-ion Battery Market Information, By Battery Type (Lithium Cobalt Oxide, Lithium Manganese Oxide) By Material Type, By Application- Forecast 2016-2027

PUNE, MAHARASHTRA, INDIA, August 25, 2016 /EINPresswire.com/ -- Study Objective of Lithium-ion Battery Market

Key Players=Panasonic Sanyo (Japan), Automotive Energy Supply Corporation (AESC) (Japan), LG Chem. (South Korea), SAMSUNG SDI Co., Ltd. (South Korea), Li-Tec Battery GmbH (Germany), Toshiba (Japan)"
Market Research Future

- To provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the [Global Lithium-ion Battery Market](#)
- To provide insights about factors affecting the market growth
- To analyze the hydroponics market based on various factors- price analysis, supply chain analysis, porter's five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe,

Asia, and Rest of the World (ROW)

- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segment by type, by application, by material type and sub-segments.

Reasons to Purchase this report:

From an insight perspective, this research report has focused on various levels of analyses—industry analysis (industry trends), market share analysis of top players, supply chain analysis, and company profiles, which together comprise and discuss the basic views on the competitive landscape, emerging and high-growth segments of the Lithium-ion Battery Market, high-growth regions, and market drivers, restraints, and opportunities.

Lithium-ion Battery is a kind of rechargeable battery which is used in various industries for various purposes. These batteries consist of a great life cycle with the high energy density. From the last decade, the Lithium-ion Battery market has seen tremendous growth due to the high demand from the consumer electronics and automotive sectors. As new devices are coming in the market and run on a portable power source, the Lithium-ion battery has become a great option. Currently, this market has been valued at US \$XX billion and is growing with a CAGR of XX%. It is expected that this market will reach the market size of US \$XX billion with a CAGR of XX% due to the high demand from various industries.

Regional Analysis

Asia-Pacific

Asia-Pacific is dominating the market of Lithium-ion Batteries with a market share of XX%. The main factors behind this growth are the growth of the consumer electronics market in China, Japan, and India. As Asia-Pacific accounts for more than 40% of the global population and most of the countries in this region are in a developing phase, the high adoption rate of consumer electronic products and high consumption of automotive products make the Asia-Pacific a leader in this market.

Europe stands as the second biggest market of the Lithium-ion Market, followed by North America, which accounts for XX% of the market share.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 145 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Global Lithium-ion Battery Market Information from 2016 to 2027](#)"

Key players

The prominent players in the market of Lithium-ion Battery are- Panasonic Sanyo (Japan), Automotive Energy Supply Corporation (AESC) (Japan), LG Chem. (South Korea), SAMSUNG SDI Co., Ltd. (South Korea), Li-Tec Battery GmbH (Germany), Toshiba (Japan), A123 Systems (U.S.), GS Yuasa (Japan), SK Energy (South Korea), BYD (China), Sony Corporation (Japan), Beijing Pride Power (BPP) (China) among others.

Industry News

- In April 2016, BYD Company announces the plans of obtaining the lithium supply to cut down the cost of battery.
- In April 2016, SK Energy announces the expansion plans for production of lithium-ion battery separator.
- In December 2015, Sony Corporation announces the plan of boosting the Lithium-ion battery performance up to 20% by 2020.
- In June 2015, A123 Systems announced the increase in the production capacity from 3.3 million cells to 4.3 million cells.

Global Solenoid valve Market Research Report- Forecast to 2027

Global Solenoid valve market has been growing rapidly from last couple of years and registered the CAGR of more than 4%. Currently this market has been valued at more than US \$4 billion which is growing rapidly as demand from industries like oil and gas, water and wastewaters, chemical and petrochemical among others are increasing. Solenoid valve are becoming more popular these days as it can be controlled electronically and gives more effective and efficient result. About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
