

# Global Assembly Robots Market - Structure, Size, Trends, Analysis and Outlook 2016-2022

*Industrial assembly robotics represents an important application segment among all the industrial robots sales and operational stock.*

PUNE, INDIA, August 29, 2016 /EINPresswire.com/ -- [Global Assembly Robots Industry](#)

Industrial assembly robotics represents an important application segment among all the industrial robots sales and operational stock. Global assembly robots market is expected to see a fast growth over the coming 2016-2022 in terms of annual shipment and sales revenue. With advantages of increasing productivity and reducing the occurrence of accident at works, assembly industrial robots have been replacing human workforce and keeping manufacturers competitive in the global markets.

Try Sample Report @ <https://www.wiseguyreports.com/sample-request/462766-global-assembly-robots-market-structure-size-analysis-and-outlook-2016-2022>

Global Assembly Robots Market - Structure, Size, Trends, Analysis and Outlook 2016-2022 examines the global industrial assembly robotics market through a comprehensive summary and analysis of premium information sources. On the basis of reviewing global economic environments and trends of various manufacturing industries (as they are end-users of industrial robots), this report provides an in-depth and detailed analysis of market structure, market trends, market forces, and market segments (by end-user, by robotics type, and by region). In most analysis, historical statistics together with market outlook cover the 2014-2022 period in terms of unit shipment as well as sales revenue generated from hardware and software of assembly industrial robots. The report also includes current competitive scenario and profiles of major vendors/players.

Qualitative market analyses include identification and discussion of market structure, market overview, growth drivers, restraints and challenges, emerging market trends/opportunities, Porter's Five Forces as well as M&A landscape and fundraising trend (IPO and VCI).

Solutions to your queries@ <https://www.wiseguyreports.com/enquiry/462766-global-assembly-robots-market-structure-size-analysis-and-outlook-2016-2022>

On basis of end-user, the market is broadly segmented into automotive industry, electrical and

electronics industry, metal, machinery, chemical, rubber & plastics industry, and other industrial sectors. The automotive industry and electrical/electronics industry consume most of newly ordered assembly robots.

On basis of product type, the market is segmented into articulated robots, Cartesian robots, SCARA robots, and other robots (cylindrical robots, delta robots, polar robots, etc.).

Geographically, the global market is segmented into North America, Europe, Asia-Pacific region, Latin America and the rest of world (RoW). Specific analysis and forecast over 2014-2022 have been covered for important national markets such as U.S., China, Japan, Germany, South Korea, and Mexico. APAC region leads the global assembly industrial robots market in terms of sales volume as well as annual revenue, followed by Europe and North America. Strongest growth potential also exists in the vast APAC market in the future with China and Southeast Asian countries expected to be the main driving engines for the growth.

Highlighted by 4 tables and 101 figures, this 196-page report saves clients a lot of time on researching global market, and provides valuable information and a thorough understanding of the market's emerging trends, which are needed to successfully derive critical business decisions, identify and expand business opportunities in the global industry.

Major Points from Table of content:

1 Introduction 6

2 Market Environment 13

3 Market Overview and Qualitative Analysis 17

4 Segmentation of Global Market by End-user 41

5 Segmentation of Global Market by Product Type 82

6 Segmentation of Global Market by Region 100

7 Manufacturing Landscape 150
