

Billionaire Child Rapist Jeffrey Epstein Caught Sneaking Back Into New York City

NEW YORK, NY, UNITED STATES, August 29, 2016 /EINPresswire.com/ -- By Steven Hoffenberg Publisher/CEO -- <http://postpublishing.buzz/> -- Campaigning for Donald Trump on 75th Street & Fifth Avenue on Sunday afternoon, Postpublishing.buzz CEO Steven Hoffenberg noticed a familiar face creeping along Fifth Avenue. The man was moving fast and was accompanied by a teen-aged girl who looked to be around 14-years-old. As Hoffenberg took a moment from handing out Trump for President buttons and stickers, the man looked him dead in the face. Hoffenberg was shocked to see it was his former protégé/partner, billionaire, convicted rapist/pedophile, Jeffrey Epstein, who resides in a multi-million dollar brownstone right on that corner, also a Bill Clinton crony, who once flew the former President in his private jet, to his Lolita hot bed island of underage young women. Startled at seeing Hoffenberg, whose Towers Investors victims he owes billions of dollars to, the cowardly Epstein fled into his house, dragging the young woman with him.

On the verge of going to jail, Epstein sneaks around the world via his private jet between his villa in the Caribbean Islands, to a home in Europe, to a mansion in Palm Beach, Florida and the mansion in the most expensive zip code in Manhattan. All of his boldness and brash prowess is expected to end on October 10, when New York Times Bestselling author James Patterson releases his powerful tome, "Filthy Rich: A Powerful Billionaire, the Sex Scandal: The Shocking True Story of Jeffrey Epstein.". Sources feel without a doubt this will get the rat locked back up in his cage called prison.
