

Intratec Discloses Production Costs of Food and Feed Additives

New reports evaluate the economic feasibility of manufacturing amino acids and food additives

HOUSTON, TX, USA, August 31, 2016 /EINPresswire.com/ -- Intratec Solutions LLC, the leading source for chemical markets data and production cost reports, is pleased to publish new reports examining the costs of production of food and feed additives.

The new reports provide estimates of capital investments (CAPEX) and operating costs (OPEX) of industrial plants producing food and feed additives, through established production processes as well as emerging technologies.

More than 25 reports were published, covering the costs of manufacturing several amino acids and food additives, including:

- [Methionine](#)
- [Lysine](#)
- [Lactic Acid](#)
- Methional
- Citric Acid
- Succinic Acid
- Azodicarbonamide

and more.

These new studies are part of Intratec portfolio of more than 900 up-to-date, independent and cost-effective reports. Intratec studies can be purchased online at Intratec website, via credit cards.
