

Focus on HVAC for upcoming projects in Egypt

The 2nd Annual HVAC Egypt Conference is taking place from 7 - 8 November 2016 in Cairo, Egypt. Officially endorsed by the ASHRAE Cairo Chapter.

DUBAI, NON-US, UNITED ARAB EMIRATES, August 30, 2016 /EINPresswire.com/ -- Electricity subsidies are set to be phased out by 2020 in Egypt. HVAC systems contribute to approximately 70% of building costs in the country and stakeholders who are responsible for upcoming projects are realising the importance of optimising HVAC systems to improve energy efficiency. Solutions with effective control and automation systems to manage temperature, air displacement speed, air quality, moisture, CO2 and CFCs are in demand.

To connect the buyers and sellers in the industry, the 2nd Annual HVAC Egypt Conference is taking place from 7 - 8 November 2016 in Cairo, Egypt. Officially endorsed by the ASHRAE Cairo Chapter, the conference is a platform for HVAC decision makers who are actively involved in upcoming residential, commercial and industrial projects in Egypt to meet innovative HVAC technology companies and understand how they can work together to help achieve optimum cooling and energy-efficiency.
