

Geist will showcase speed of delivery at Critical Power Expo

LINCOLN, NEBRASKA, USA,
September 2, 2016 /EINPresswire.com/
-- Geist, knowing the challenges of power distribution unit (PDU) delivery, will showcase their US manufactured Power solutions to Critical Power Expo attendees. The 2016 event takes place in Novi, Michigan, September 13-15, 2016.

Manufactured in the US, makes the ease of delivering PDUs - built to specification - a top reason for Geist's excellence in assisting their customer's needs at the time they are needed.

Demonstrations of the PDUs with its newest feature – U-Lock - will be delivered at Geist's booth 2233. The future thinking Geist Upgradeable PDU, which offers hot-swappable options for future upgrades and a 60°C operating temperature will be on display, along with the latest SwitchAir® product that effectively prevents network switches from frying due to overheating. Geist Monitor and DCIM products will also be available for hands-on demos.

[Register](#) for the 2016 Critical Power Expo today.

The image features the Geist logo, which consists of a yellow hexagonal shape with a white square inside, positioned above the word "GEIST" in a bold, black, sans-serif font. Below the logo is the tagline "Future Thinking • Solutions Today". The lower portion of the image shows a close-up of a black PDU unit with several green and yellow outlets and a control panel with buttons and a small display.

Install the technology you need today with the ability to upgrade as your needs evolve
