

PBHspace Seeks to Bring Space Access to Small Business by Creating Capabilities with 21st Century Spacecraft Engineering

You can support PBHspace bring space access to more businesses by supporting a crowdfunding campaign that gives you the opportunity to broadcast from space

HARVEST, ALABAMA, UNITED STATES OF AMERICA, September 7, 2016 /EINPresswire.com/ -- PBHspace is in the business of creating capabilities with 21st century spacecraft engineering. A large part of the mission of the company is to bring space access to more businesses through the innovative design of spacecraft. The company is currently designing the Q1 Spacecraft Bus, and is

seeking crowdfunding support of finalize the design of the spacecraft and build a prototype - the Q1-1 satellite.

By contributing to the PBHspace Q1 Spacecraft Bus campaign - sponsored through Tilt Pro - participants will be given the opportunity to send their name to space when the Q1-1 launches, or to broadcast a message from the Q1-1 in orbit. One contributing organization could even have access to the satellite for their own mission.

PBHspace is looking for individuals and organizations that want to help bring space access to more businesses around the world, while having the opportunity to fly something into low-Earth orbit. If this is something that interests you, visit the PBHspace website and view details on what has been accomplished so far with the design of the Q1 Spacecraft Bus, and then make your contribution to the crowdfunding campaign.
