

Global Automatic Content Recognition Market Analysis Various Segments, Industry Applications, Key Players to 2022

Global Automatic Content Recognition Market, by Technology (Speech recognition, Digital watermark, Passive fingerprinting), by Application - Forecast 2022

PUNE, MAHARASHTRA, INDIA, September 8, 2016 /EINPresswire.com/ -- Industry News:

· ACR Cloud has done an announcement on February 2016 about its partnership with Xiaomi to integrate music recognition technology with MIUI. The end-consumers will be now able to stream and download the songs from their music library.

· Digimarc Corporation has done an announcement on July 2016 about its partnership with Diadeis, one of the leaders in design industries. The partnership is done to provide certified barcode provider to Digimarc. This Digimarc barcode will provide easy scanning at checkout and check-ins, and other valuable mobile engagement.

“

Major players include Arcsoft, Inc. (US), Digimarc Corporation (US), Microsoft Corporation (US), ACR Cloud (China), Enswers, Inc. (South Korea), Google, Inc. (US), Beatgrid Media BV (Netherlands)”

Market Research Future

Key Players

Some of the major players in Global Automatic Content Recognition Market include Arcsoft, Inc. (U.S.), Digimarc Corporation (U.S.), Microsoft Corporation (U.S.), ACR Cloud (China), Audible Magic Corporation (U.S.), Civolution (U.S.), Gracenote, Inc.(U.S.), Enswers, Inc. (South Korea), Google, Inc. (U.S.), Beatgrid Media BV (Netherlands), and Clarifai Inc. (U.S.) among others.

Objective Study of Automatic Content Recognition Market:

· To provide detailed analysis of the market structure along with forecast for the next 10 years of

the various segments and sub-segments of the global Automatic Content Recognition Market.

- To provide insights about factors affecting the market growth.
- To Analyze the Automatic Content Recognition Market based on various factors- porters five force analysis, mega trend analysis, macroeconomic indicators etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW).
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segment by technology, by applications and sub-segments.
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global Automatic Content Recognition Market.

Taste the market data and market information presented through more than 70 market data tables and figures spread in 110 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Automatic Content Recognition Market Research Report- Global Forecast to 2022](#)"

Market Synopsis of Automatic Content Recognition Market

Market Scenario

The major growth driver of Automatic Content Recognition Market includes growing consumer electronics and wearable device market, rise in deployment of automatic content recognition in media & entertainment industries, and growing digital technology among others.

Hence the market for Automatic Content Recognition is expected to grow at XX% CAGR (2016-2022).

However, technology limitation and lack of awareness about the technology is one of the factors which are hindering the growth of Automatic Content Recognition Market.

The early diners are offered free customization- Up To 20%

Segments

Global Automatic Content Recognition Market can be segmented as follows:

Segmentation by Technology: Passive fingerprinting, speech recognition and digital watermarks.

Segmentation by Applications: Broadcast industry, Media & Entertainment, Advertising, Industrial, Game industry, consumer electronics, and Education among others.

Regional Analysis of Automatic Content Recognition Market:

North-America is dominating the Global Automatic Content Recognition Market with the largest market share due to presence of advanced and developed media industry in the region, and therefore accounting for \$XX million and is expected to grow over \$XX billion by 2022. Automatic Content Recognition Market in Asia-Pacific market is expected to grow at CAGR of XX% from \$ XX million in 2016 to \$XX million by 2022. The European market for Automatic Content Recognition Market is expected to grow at XX% CAGR (2016-2022).

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
