DENVER, COLORADO, UNITED STATES, September 8, 2016 /EINPresswire.com/ -- Photography by Avital, a family and business photography service, is celebrating the completion of six-month’s worth of daily social media photography posts, titled “Photos of the Day.” The posts incorporate a diverse set of pictures, including people, animals, nature, architecture, and ‘life-as-it-is’ snapshots.

Avital Rotbart, founder and CEO, expressed her gratitude for the perspective the “Photos of the Day” project has provided her. “As a photographer, knowing that I have to post a photo each and every day, has led me to expand my creative vision and to take far more quality photographs on a regular basis. I have spent extra time looking for unique shots that I think my followers will enjoy seeing.”

Rotbart’s photos appear on [Instagram](#), [Facebook](#), and [Twitter](#). Many of the pictures have also been published on popular websites, including PsychCentral.com, MondayMorningRadio.com, and RadioChavura.com.

“Although my initial goal was to post daily images for only one year, I see this undertaking as having the potential to be a lifelong project,” said Rotbart, a sophomore at Metropolitan State University of

Denver. "It is an incredible way to document my life and the growth of my photography skills, and I can't wait to see what develops (photo pun intended) in the future."

A collage of all of the photos Rotbart published in the first six months of her project can be found on each of her three social media accounts (Facebook, Twitter, and Instagram).

Rotbart has been working as a professional photographer for four years. Her professional assignments have included photographing celebrities, including Al Pacino; and capturing numerous business and nonprofit events.
