

Switch Announces Limited Time Promotion for Spark Wifi Monetized Wifi Solution

Switch offers Spark Wifi service at no charge to the first 100 locations to sign up until December 31, 2016.

EDMONTON, ALBERTA, CANADA, September 12, 2016 /EINPresswire.com/
-- Switch Incorporated, a new entrant into the global telecommunications sector,

has announced that it is offering its [Spark Wifi](#) service at no charge to the first 100 locations to sign up until December 31, 2016. Spark Wifi is an easy-to-use, hassle-free way for providing and managing free and paid access to the internet via wireless internet.

“

Spark Wifi is a fantastic service and is perfect for RV parks, campgrounds, cruise ships, hotels, conference centres, airports, and even governments or retailers.

*Darren Hokanson, Switch
CEO*

Spark Wifi is based on a “freemium” model, where limited internet access can be provided free of charge, with options for pre-paid upgrades to increase speeds or stay signed in for longer periods of time. End users simply search for the wireless network (SSID) called Spark Wifi and, once they connect to the SSID, they will be presented with a login portal. From there, they simply log in using their email, or by using their social media accounts from Facebook, Google, or Twitter. Spark Wifi provides user analytics, advertising opportunities for additional revenue and automated, pre-paid internet access which directly and securely bills an end user’s credit card in most global currencies.

“Spark Wifi is a fantastic service and is perfect for RV parks, campgrounds, cruise ships, hotels, conference centres, airports, and even governments or retailers. The polished, easy-to-use interface and flexibility in terms of plans and co-branding makes Spark Wifi the best monetized Wifi solution on the market today,” states Switch CEO, Darren Hokanson. “We couldn’t be happier with the product and look forward to helping more businesses monetize their internet using Spark Wifi.”

Locations interested in the Spark Wifi Promotion must agree to distribute Spark Wifi using a “freemium” model, whereby the end users can choose from a free, limited service and have the options to purchase premium, higher-speed plans, as well as meet existing hardware and internet requirements.

Businesses interested in learning more about the Spark Wifi limited time promotion can contact Switch directly via email at sales@switch.ca, by phone at 1 (877) 628-3801 or by visiting www.sparkwifi.ca
