Key Players

Some of the key players in the Nano and Micro Satellite market are Dauria Aerospace, Deep Space Industries, Innovative Solutions in Space, Planet Labs, Space Quest, GeoOptics, Sierra Nevada, and Axelspace, Clyde Space, and Dynetic

Study Objectives of Nano and Micro Satellite Market

- To provide detailed analysis of the market structure along with forecast for the next 5 years of the various segments and

sub-segments of the [Global Nano And Micro Satellite Market](#)

- To provide insights about factors affecting the market growth
- To analyse the Global Nano and Micro Satellite Market based on various factors- price analysis, supply chain analysis, porter’s five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- To provide country-level analysis of the market with respect to the current market size and future prospective
- To provide country-level analysis of the market for segment by End Users and applications
- To provide strategic profiling of key players in the market, comprehensively analysing their core competencies, and drawing a competitive landscape for the market

Market Synopsis of Nano and Micro Satellite Market

The global Nano and Micro Satellite market is expected to grow at a CAGR of around 24% during 2016-2021. This growth is driven due to significant increase in demand for commercial application, low cost of nano and micro satellite, and increased utilization for military and defense areas.

Global Nano and Micro Satellite Market (\$ billion), 2016-2021

The Americas will lead the market by 2021, followed by APAC and EMEA. Development of all-electric propulsion systems for satellites will contribute to the development of the nano and microsatellite market. MEMS and miniaturized electronically-powered propulsion systems would lead to applications for miniaturized satellites.

Key Findings

- The number of satellites would increase significantly from 150 satellites in 2014 to 470 satellites in 2019
- Commercial application account approx. 60% of the market share as of 2015. Civil and Government application will see significant growth in the forecast period
