

# IBM SPSS Modeler Professional available for online cloud access

*AppOnFly is releasing the analytics software IBM SPSS Modeler Professional for online cloud access - for Windows, Mac, iOS or Android.*

SAN FRANCISCO, CALIFORNIA, UNITED STATES, September 13, 2016 /EINPresswire.com/ -- AppOnFly Inc. is launching the analytics software IBM SPSS Modeler Professional available from cloud - for Windows, Mac, iOS or Android.

AppOnFly makes IBM SPSS Modeler accessible through either a remote desktop protocol (RDS) or directly through Html5 browser access in the form of monthly subscription.

About IBM SPSS Modeler  
IBM® SPSS® Modeler is a predictive analytics platform that is designed to bring predictive intelligence to decisions made by individuals, groups, systems and the enterprise. It provides a range of advanced algorithms and techniques, including text analytics, entity analytics, decision management and optimization, to help selecting the actions that result in better outcomes.

AppOnFly - windows software from cloud

AppOnFly offers the data mining and text analytics software IBM SPSS Modeler Professional for a fraction of the price of the standalone application.

A revolution in software distribution in cloud”  
*Vaclav Svatek, CEO Apponfly*

The online cloud access to IBM SPSS Modeler through the AppOnFly subscription model has the following advantages:

Setup in seconds  
No downloading. No installing. No waiting. IBM SPSS Modeler Professional is configured and ready to use.

Pay As You Go model

There are no commitments for the user and no need to pay for the software when they are not using

it.

### Easy team collaboration

The users can add their co-workers and share their data as if they were using a single computer.

They can select Shared folder and choose who can view or edit the file.

### Files are saved and secure

Even if the user's device goes for a swim, the data is always safe with AppOnFly.

### About AppOnFly:

AppOnFly is bringing to the user Windows software from the cloud, faster and easier than ever before. Our mission has always been to make Windows software more accessible for everyone. We believe that you should have the freedom and flexibility to pluck any Windows software the user needs from the cloud, whenever and wherever he or she needs it. Not only that, we don't believe that the user should be forced into long-term financial commitments. We reckon that pay-as-you-go is the way to go.

AppOnFly first had the idea to deliver apps from the cloud way back in 2005 (light years in tech years!) and have been perfecting the platform for doing this ever since. The AppOnFly platform is now capable of delivering an ever-increasing choice of professional Windows apps from the cloud, within just a few seconds.

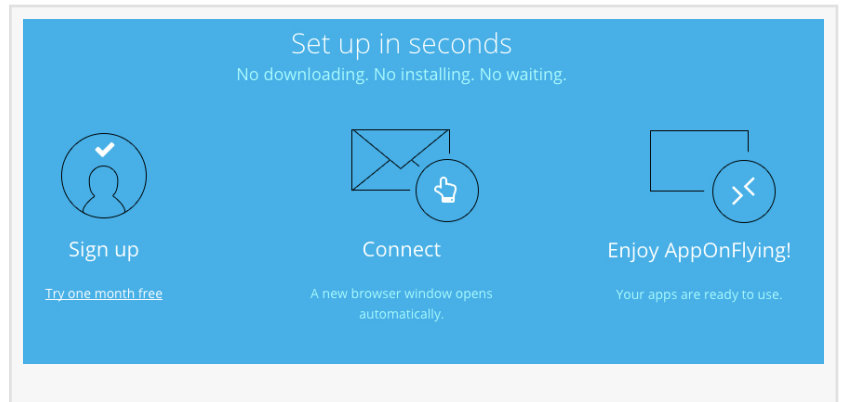

Amongst the software to choose from are above all [IBM SPSS statistics](#), [Microsoft Access](#), Microsoft Office, [Microsoft Project](#) and Microsoft Visio and others.
