IMTC hosts the world's largest Money Transfer Conferences and Trade Fairs. With remittances being one of the most important contributions of international migrants and overseas workers to their home country, the industry is seeing significant changes to the traditional business models with new developments from the Fintech sector and a strong development of digital channels.

In its newest Remittance & Development Brief, the World Bank has estimated that growth in remittance flows is expected to slow down due to the lower gas prices which hurts the oil-rich nations and their foreign workers. Global remittances, including both developing and high-income countries could rise to \$636 billion in 2017 and South Asia is the region with the largest corridors; India receives between 65-70 Billion a year in remittances, the 31 country in the world, followed by China, Philippines and Mexico.

The main objective of this one-of-a-kind event in Delhi is to explore the trends in the market, the challenges & opportunities, looking at the past to understand the present and analyze what the future will bring. The speaker line-up of this historic event brings experts in many areas such as Dilip Ratha, Dr. Anand Shrivastav, Anil Kapur, Kaushik Roy, Harveer Singh, Darpan Shah, Amar Das, Suraj Vaghani, Stuart Butler, Sujoy Kalijal, Ankush Sharma to name a few, from international & local companies such as Ria Money Transfers, Xpress Money, MoneyGram, GenX Solutions, Uniteller,
