

## Industrial Wireless Transmitter Global Market Trends, Market Share, Growth, Opportunities, and Forecast to 2020

Industrial Wireless Transmitter World Market Segmentation and Major Players Analysis 2020

PUNE, INDIA, September 15, 2016 /EINPresswire.com/ -- Wireless Transmitter is a circuit that accepts signals or data in and translates them into a form that can be sent across a wireless medium (transmitted) usually over a distance. Wireless transmitter technology is rapidly evolving, and plays a vital and increasing role in the growth of the Wireless Transmitter Market all over the globe.

The major factor responsible for the growth of the wireless transmitter market is the increasing

demand for the automotive industry apart from the major revenue contributions from Oil & Gas and Petrochemical industry verticals. Hence, advancements in such technologies can fuel the market growth of the <u>industrial wireless transmitter</u> industry.

The industrial wireless transmitters market rise at a compound annual growth rate (CAGR) of XX.X percent from 2015 to 2020.

Asia-Pacific market accounted for the highest market share in the industrial wireless transmitters market, followed by North America and Europe. Over the forecast period, growing automobile industry in Malaysia, China and Indonesia would have a positive impact on the wireless transmitter market.

The global industrial wireless transmitters market is segmented on the basis of types, medium, transmitter range, and applications. It is categorized in

General Purpose Transmitters (Analogue Transmitter, Cathodic Transmitter, Discrete Transmitter)

Level Transmitters (Hydrostatic Level Transmitter, High Level Switch, Liquid Level Transmitter)
Pressure Transmitters

Temperature Transmitters (RTD Temperature Transmitter, Thermocouple Transmitter) and others.

Industrial wireless transmitter is broadly segmented which results in market opportunities and provides a competitive environment to vendors.

Numerous products are available in the Industrial Wireless Transmitters market such as wireless transmitter-LCD, wireless I/O modules, wireless gateways, and others.

The industrial wireless transmitters market is highly competitive as some of the key participants are Rhode & Schwarz, Adcon Telemetry, Oleum Technologies, Inovonics, SATEL, Eltako Electronics, and others.
