Reasons To Buy

- What was the size of the global real estate market by value in 2015?
- What will be the size of the global real estate market in 2020?
- What factors are affecting the strength of competition in the global real estate market?
- How has the market performed over the last five years?
- How large is the global real estate market in relation to its regional counterparts?

Key Highlights
The real estate industry looks at renting and leasing residential properties. The industry is valued using the total revenues generated by landlords via leasing and renting private and council properties. Values are calculated using the average annual rent multiplied by the number of rented properties. Volume includes number of houses/properties rented out (vacant properties

excluded). Leading companies sections relates to companies that are involved in residential property rental and development business. Any currency conversions used in the creation of this report have been calculated using constant annual average 2015 exchange rates.

The global Real Estate industry had total revenue of $3,344.4bn in 2015, representing a compound annual growth rate (CAGR) of 0.7% between 2011 and 2015.

Industry consumption volume increased with a CAGR of 0.6% between 2011-2015, to reach a total of 499,342.2 thousand units in 2015.

The performance of the industry is forecast to accelerate, over the five-year period 2015 – 2020. Global growth was driven by a strong performance from the largest regional market, Asia-Pacific, chiefly fuelled by figures from China.
