Global Military Airborne Collision Avoidance Systems Market Research Report- Forecast to 2021

Global Military Airborne Collision Avoidance Systems Market by Types (TCAS, RADAR, PCAS, GPWS and TAWS), by Technology , and by Geography- Forecast To 2021

PUNE, MAHARASHTRA, INDIA, September 15, 2016 /EINPresswire.com/ -- The global Military Airborne Collision Avoidance Systems market is expected to grow at a CAGR of around 5% from 2016 to 2021. Increasing demand for airborne collision avoidance system (ACAS) in military UAVs, need for operational safety of manned military aircraft, and regulatory requirements of ACAS for military aircraft are the drivers for global Military Airborne Collision Avoidance Systems market. The challenges associated with the market are the difficulties to develop a robust ACAS and limitations of current ACAS.

Study Objectives of Military Airborne Collision Avoidance Systems Market

• To provide detailed analysis of the market structure along with forecast for the next 5 years of the various segments and sub-segments of the Global Military Airborne Collision Avoidance Systems Market
• To provide insights about factors affecting the market growth
• To analyse the Global Military Airborne Collision Avoidance Systems Market based on various factors- price analysis, supply chain analysis, porter's five force analysis etc.

> **The Major Key Players are** oneywell Aerospace, L-3 Communications, Rockwell Collins, SAAB and Thales"
> *Market Research Future*

• To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
• To provide country-level analysis of the market with respect to the current market size and future prospective
• To provide country-level analysis of the market for segment by types and technology
• To provide strategic profiling of key players in the market, comprehensively analysing their core competencies, and drawing a competitive landscape for the market
• To track and analyse competitive developments such as joint ventures, strategic alliances, mergers

and acquisitions, new product developments, and research and developments in the Global Military Airborne Collision Avoidance Systems Market

Market Synopsis of Military Airborne Collision Avoidance Systems Market
The global Military Airborne Collision Avoidance Systems (ACAS) market is expected to grow at a CAGR of around 5% during 2016-2021. The key drivers behind the growth are increasing demand for airborne collision avoidance system and regulation requirement of ACAS for military aircraft.

Key Players
The leading market players in the global Military Airborne Collision Avoidance Systems market primarily include Honeywell Aerospace, L-3 Communications, Rockwell Collins, SAAB and Thales. The other prominent vendors include Airbus, Alenia Aermacchi, Diehl, Indra Sistemas, Sagem, and Selex ES.
Taste the market data and market information presented through more than 50 market data tables and figures spread in 112 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "Global Military Airborne Collision Avoidance Systems Market Research Report- Forecast to 2021"

Key Findings
• The global military ACAS market was valued at $XX million in 2015 and will reach $XX million by 2021, growing at a CAGR of around 5%
• In 2015, Americas is leading the global Military Airborne Collision Avoidance Systems market followed by EMEA and Asia-Pacific
• Radar-based ACAS is the most widely used system across all military aircraft

Regional and Country Analysis of Military Airborne Collision Avoidance Systems Market
As per the MRFR analysis, the EMEA Military Airborne Collision Avoidance Systems market is poised to reach $XX Million in 2021, to grow at a CAGR of around 6% during the forecasted period. Whereas, Americas and Asia Pacific will grow at a CAGR of around XX% and XX% respectively.

The report also cover Major country level analysis:
• Americas (North & Latin)
• Europe
• Asia – Pacific
• Middle East & Africa

The market report for Military Airborne Collision Avoidance Systems of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

The Major Topics Included in Table of Content are:
1. INTRODUCTION
2. EXECUTIVE SUMMARY
3. SCOPE OF THE STUDY
4. ASSUMPTIONS AND LIMITATIONS
5. RESEARCH METHODOLOGY
6. MARKET SIZE ESTIMATION
7. MARKET FACTOR ANALYSIS
8. MARKET DYNAMICS
9. MARKET SEGMENTATION
10. GLOBAL MILITARY AIRBORNE COLLISION AVOIDANCE SYSTEMS MARKET BY TYPES, 2016-2021
11. GLOBAL MILITARY AIRBORNE COLLISION AVOIDANCE SYSTEMS MARKET BY TECHNOLOGY, 2016-2021
12. GLOBAL MILITARY AIRBORNE COLLISION AVOIDANCE SYSTEMS MARKET BY REGION, 2016-2021
13. COMPETITIVE LANDSCAPE
14. COMPANY PROFILE

Global UAV Market Research Report- Forecast to 2021
As per the MRFR analysis, cost effectiveness is one of the key drivers for global UAV market to acquire and operate in comparison to manned aircraft and helicopters. The challenges associated with the market are the low endurance and stringent regulation associated with civilian and commercial usage of UAVs.
The United States is leading the global UAV market; however the demand has increased from emerging nations such as EMEA and Asia Pacific in relation to growing defense spending to counter national security threat.
