

Global Pre-engineered Buildings Market Applications, Key Players, Size, Development, Analysis, Outlook to 2021

Global Pre-engineered Buildings Market Information by Material (Steel, Aluminum and others) by End-use (Commercial, Industrial) and Region - Forecast to 2021

PUNE, MAHARASHTRA, INDIA, September 15, 2016 /EINPresswire.com/ -- Synopsis of the Global Pre-engineered Buildings Market

Key players: BlueScope Steel Ltd., Tiger Steel Industries LLC, Kirby Building Systems, Everest Industries Ltd., Interarch Building Products Pvt. Ltd, Era Infra Engineering Ltd, Jindal Buildsys Limited”

Market Research Future

Segments

Global pre-engineered buildings market is segmented on the basis of material, end-use, and region. On the basis of material it is segmented as steel, aluminum, and others. On the basis of end-use it is segmented as commercial (such as offices and showrooms), industrial (such as factories and warehouses), and Infrastructure (such as bridges, airport hangers and railway platforms). Additionally on the basis of region, it is segmented as North America, Europe, APAC and Rest of the World.

Key Players

- BlueScope Steel Ltd.
- Tiger Steel Industries LLC
- Kirby Building Systems
- Everest Industries Ltd.
- Interarch Building Products Pvt. Ltd.
- Era Infra Engineering Ltd
- BEB Steel Buildings Co. Ltd.
- Bennar Engineered Building Systems Ltd
- Jindal Buildsys Limited
- Zamil Steel Holding Co. Ltd.
- Multicolor Steels India Pvt. Ltd.

Market Scenario

The global pre-engineered buildings market is driven by the increased demand for warehouses globally and the eco-friendly nature of the construction. There is a boom in e-commerce and logistics sector. This particularly augments the demand for warehousing and other storage facilities, which make use of the pre-engineered buildings. This material majorly used in the construction of the pre-engineered buildings is steel which in turn is highly reusable without losing its engineering properties.

This eco-friendly nature of the constructions further has led to the growth of the global pre-engineered

market. The global pre-engineered buildings market is expected to and reach US\$ XX million at the end of the forecasted period and is expected to show a staggering growth at CAGR of X.X% from 2016 to 2021.

Taste the market data and market information presented through more than 70 market data tables and figures spread in 115 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Global Pre-engineered Buildings Market Research Report - Forecast to 2021](#)"

Study Objectives of Global Pre-engineered Buildings Market

- o To provide detailed analysis of the market structure along with forecast for the next 10 years of various segments and sub-segments of the global pre-engineered buildings market
- o To provide insights about factors affecting the market growth
- o To analyze the Global Pre-engineered buildings market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- o To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, APAC, and Rest of the World (RoW)

[buildings-market-research-report-forecast-to-2021](#)

oTo provide country level analysis of the market with respect to the current market size and future prospective

oTo provide country level analysis of the market for segment by material, end-use and by region.

oTo provide strategic profiling of the key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market

oTo track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global pre-engineered buildings market

Regional Analysis of Global Pre-engineered Buildings Market

APAC dominates the Global pre-engineered buildings market with its fast growing market worldwide. It will expand at a CAGR XX% over the forecast period. The region is expected to show rapid economic and infrastructural growth. With lot of investments in the regions of China and India, the construction sector is growing. The inflow of foreign investment in India further augments the market for pre-engineered building.

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
