According to Researcher, the [Global Cosmeceuticals Market](#) is expected to grow at a CAGR of 9.8% during the forecast period. Growing desire of consumers to maintain young-looking appearance, increasing tendency of people to maintain healthy skin without using chemicals is fueling the demand for natural active ingredients, paving way for plant stem cells.

Skin care is the biggest application area of cosmeceuticals, succeeded by hair care. In skin care market, anti ageing products accounted for the largest share owing to the increasing desire amongst 35+ age group people to have youthful skin. Asia Pacific is the leading market, and is also anticipated to observe the highest growth. The major reasons for the high growth are the increasing disposable income of this region coupled with the rising appearance consciousness amongst people.
