

Print Machines 4 Sale Rolls Out New Print Industry Equipment Auctions Service For Used Equipment

A new website has been launched for businesses in the Print Industry.

<http://www.printmachines4sale.com> covers every aspect of Pre-Loved Printing Equipment

SYDNEY, NEW SOUTH WALES, AUSTRALIA, September 17, 2016 /EINPresswire.com/ -- As newer models evolve, many businesses will have a need to sell off or auction used equipment. A new Printing Industry Equipment service has been formed for companies faced with the complex questions of "How to Expand or Offload Their Equipment Needs?" and "What Options are Available to Achieve that with Minimal Effort and Expense?" <http://printmachines4sale.com> has access to all aspects of the complex Print Market.

There are, of course, many companies online which cover various aspects of the Print Industry Used Equipment Market. However, Print Machines 4 Sale has been specifically chosen by Pilpel Print in Perth, Western Australia as the service through which they will auction their pre-loved surplus equipment. Trust, cost and industry knowledge were just a few of the many factors in engaging Print Machines 4 Sale to take on the job.

After 89 years of faithful service to Western Australia's business community, Pilpel Print is closing down.

All equipment, in full production until end of August 2016, will be sold off via the Print Machines 4 Sale website.

Due to the high quality nature of Pilpel Print's award-winning work, all equipment is in very good condition and fit for purpose unless otherwise noted in the Lot Product Descriptions on the website.

Print Machine 4 Sale are initially inviting offers for private treaty sales of remaining assets, before commencing sale by auction exclusively on their website.

Equipment inspection is welcomed from Tuesday 4th October to Friday 7th October between 8am and 4pm (AWST), or by appointment only outside these times. Inspections are onsite at Pilpel Print, 148 Beaufort Street, Perth, Western Australia 6000.

Auction Starts: 9 am AEST Monday 10th October 2016 and Ends: 4 pm AEST Thursday 20th October 2016. Auction will begin Monday, October 10th, 2016 unless items are sold beforehand. All prices shown on the website are in Australian Dollars only. Bidder Registration start on October 1st, 2016

Whilst the print industry continues to grow at an amazing speed, especially online, businesses are faced with conflict and confusion as more and more Print Industry information becomes widely available - and it's harder than ever to truly get to the bottom of such a complex and rapidly changing market - purely because of the volume of outdated text, audio, and video available online. Print Machines 4 Sale can help clarify and remove any confusion.

Print Machines 4 Sale's website is extremely comprehensive and user friendly which also provides a very intuitive user interface, but unlike some of its direct competitors in the same area – the information provided is easily understood and Print Industry specific. The service is aimed at businesses in the Print Industry who need to be provided with sound information in a situation where cross-industry sales on other sites makes it difficult for managers to make objective decisions regarding their business needs.

To find out more, go to www.printmachines4sale.com - one of Australia's most comprehensive and informative Print Industry Equipment services websites.
