

Global Cloud Billing Market 2016 Share, Trend, Segmentation and Forecast to 2021

annual growth rate of 26.14% to reach the total market size of US\$15.182 billion in 2021, from US\$3.768 billion in 2015

PUNE, MAHARASHTRA, INDIA, September 21, 2016 /EINPresswire.com/ -- <u>Cloud Billing</u> Industry

Description

Wiseguyreports.Com Adds "Cloud Billing -Market Demand, Growth, Opportunities and analysis of Top Key Player Forecast to 2021" To Its Research Database

Cloud Billing Market is projected to witness a compound annual growth rate of 26.14% to reach the total market size of US\$15.182 billion in 2021, from US\$3.768 billion in 2015. Cloud billing solutions enable generation of bills from the resource usage data, using a set of predefined billing policies. Adoption of Cloud Billing is accompanied by a number of advantages, such as enhanced performance, higher transparency in billing and charging processes, flexibility, virtualized workplaces and simplified operations. Some of the key factors driving the growth of this market are increasing demand for billing operations, need to lower capital and operating expenditure, centralized and convergent billing solutions. Other factors include increased adoption of cloud technology by Small and Medium Enterprises, increasing use of subscriptionbased billing and pay-per-use model. As companies are working on improving customer experience and focusing on customer retention, Cloud billing market is expected to grow significantly during the forecasted period. However, the transition from on-premises to cloudbased billing, dynamic technology and lack of awareness are few factors hindering the Cloud Billing Market growth. Americas region is expected to dominate the global cloud billing market with dominant market share, whereas the Asia-Pacific (APAC) region is expected to exhibit the highest growth rate over the next six years.
