Complete Report Details @ https://www.wiseguyreports.com/reports/456516biocontrol-agents-global-market-outlook-2015-2022

According to Researcher, the <u>Global BioControl</u> <u>Agents market</u> is estimated at \$1.55 billion in 2015 and is poised to reach \$3.67 billion by 2022, growing at a CAGR of 13.1% from 2015 to 2022. Rising concern regarding food contamination due to excess usage of pesticides is one of the key factors driving the market growth. Furthermore, concern about environment and soil fertility are the factors favoring the market growth. However, lack of adequate awareness among users acts as a restraint for BioControl Agents market. Based on application, On-Field segment is likely to acquire the highest market share during the forecast period driven by the use of beneficial insects. On-field and seed treatment segments are

capturing maximum of the market share in BioControl Agents application market. Due to their low cost and large availability, Microbials are the most widely chosen active substances. North America leads the market globally with the largest market share and is expected to grow at the highest CAGR among the other regions.
