

ESI Roundtable Launches San Francisco CLE Workshop

ESIRT Brings Unique Workshop Format to Northern California Legal Community

LOS ANGELES, CA, UNITED STATES, September 21, 2016 /EINPresswire.com/ -- [ESI Roundtable](#), the only eDiscovery CLE organization providing practical and engaging hands-on training for local legal communities, will bring its unique Half-Day CLE Workshop to the San Francisco office of Duane Morris LLP on the afternoon of October 27th.

[ESI Roundtable CLE Workshops*](#) deliver practical education combined with breakout sessions designed for “hands-on” training through a variety of exercises. ESIRT Workshops create a community where colleagues and service providers can learn from each other in a comfortable, pitch-free atmosphere. Participants are encouraged to dialogue with session leaders and contribute their comments and perspectives to the discussion.

We're very excited to bring our Workshops to San Francisco this year. One of the most exciting things about ESIRT CLE Workshops is recognizing that the topics have been chosen by local practitioners.

Melissa Rogozinski, Founder and President, ESI Roundtable

ESIRT issued a pre-workshop survey to poll the San Francisco legal community on what topics were most appealing to their practice and Courts. The October 27th Agenda reflects the survey responses.

"In a hostile litigation environment, no element of preparation should be overlooked, especially preserving electronic information that may be relevant to a client's claims or defenses," said Jennifer Briggs Fisher, a partner with host firm Duane Morris. "Our panel will discuss procedures and strategy for effective litigation holds, which have come under increasing scrutiny in recent high-stakes trials. We will provide helpful guidance on how to navigate the litigation hold process."

The half-day Workshop consists of content sessions, presented by local practitioners – judges, attorneys, paralegals, litigation support – on behalf of ESI Roundtable. Local speakers create a sense of community among colleagues with whom participants can network and connect outside of the Workshops. Session topics Proper Litigation Hold: Process & Documentation and Authentication of Evidence will be presented by select members of the distinguished ESI Roundtable San Francisco panel: Hon. Robert McGuiness; Jennifer Briggs Fisher; Robert M. Fineman; Sujatha Ganesan; Bryan Ketroser; Tauri Schow; and Urmika Shah.

Workshop breakout sessions are led by service and technology providers and are designed to complement the content sessions. Understanding & Using Analytics, presented by EspyCase, and Hosting, Review & Production, presented by Logikcull, will provide an opportunity to learn practical implementation in an interactive setting.

“We’re very excited to bring our Workshops to San Francisco this year,” states Melissa Rogozinski, President of ESIRT, LLC. “One of the most exciting things about ESIRT CLE Workshops is recognizing that the topics have been chosen by local practitioners. The time spent planning for and attending these programs is much more beneficial to everyone when we’re able to deliver exactly what the community needs, by request.”

*This course or a portion thereof has been submitted for approval to the California State Bar for a maximum of 4 hours' credit. ESIRT will assist with reciprocity or other documentation needed for counsel to obtain credit in other states.

ABOUT ESI ROUNDTABLE

ESI Roundtable is a grassroots, continuing legal education organization that provides training and workshops with practical content and local networking. Our programs are customized to the needs of legal professionals in the local communities where events are hosted. As a complement to our CLEs, our website contains links to best-of-breed curated resources as well as original resources, like our blog and Membership Subscriptions (Litigation Forms & Presentations Libraries). ESI Roundtable has produced over 250 e-Discovery CLEs since 2008. ESI Roundtable is "eDiscovery for the Rest of Us!™"
