

# Global Aerospace & Defense Carbon Brakes Market Likely to Reach \$1.9 Billion by 2021: Stratview Research

*Extensive Market Research Report from Stratview Research includes Trends, Forecasts, Competitive Analysis and Strategic Growth Opportunities.*

DETROIT, MI, UNITED STATES,

September 22, 2016 /

EINPresswire.com/ -- Stratview

Research announces the launch of an exclusive market research report on

[Global Aerospace & Defense Carbon Brakes Market](#) by Aircraft Type

(Commercial, Regional, General

Aviation, and Military Aircraft), by end

use (OEM and Aftermarket), by fiber

precursor (PAN and Pitch), by process

(LPI and CVI), by region (NA, Europe, APAC, RoW), Trend, Forecast, Competitive Analysis, and Growth Opportunity: 2016 – 2021

The Publisher, a Global Market Intelligence Firm

The market report from Stratview Research studies the global aerospace & defense carbon brakes market over the period 2010 to 2021. The reports provide detailed insights on the market dynamics to enable informed business decision making and growth strategy formulation based on the opportunities present in both the markets.

## The Global Aerospace & Defense Carbon Brakes Market: Highlights

As per Stratview Research, the global aerospace & defense carbon brakes market is estimated to be worth \$1.9 Billion in 2021, offering a strong growth of 7.6% CAGR during the forecast period of 2016 to 2021, which offers an opportunity to the aerospace & defense industry players to align themselves with the market growth.

There are a number of factors bolstering the growth of carbon brakes market in the aerospace and defense industry. The author of the industry report cited increasing commercial aircraft deliveries, growing aircraft fleet size, and better operational performance of carbon brakes over

steel brakes are some of the key growth drivers of the global aerospace & defense carbon brakes market.

Commercial aircraft is expected to remain the growth engine of the carbon brakes market

The author stated that the commercial aircraft segment is expected to drive the aerospace and defense carbon brakes market during the forecast period. Both OEM and aftermarket segments are likely to offer healthy growth opportunity over the next five years.

North America is expected to be the dominant and Asia Pacific to be the fastest growing region

North America is expected to remain the largest market for carbon brakes due to presence of manufacturing base of the largest commercial OEM, Boeing, and also due to the increasing retrofit market. However, during the next five years, Asia Pacific is expected to grow at the highest rate.

High market consolidation

Our research findings suggested a high consolidation in the carbon brakes market. The key brake manufacturers are Meggitt Aircraft Braking Systems, Honeywell Aerospace, Safran Landing Systems (Messier-Bugatti-Dowty), and UTC Aerospace Systems.

Report Features

This industry research report from Stratview Research provides market intelligence in the most comprehensive manner. The report structure has been kept such that it offers maximum business value. It provides critical insights on the market dynamics and will enable strategic decision making for the existing market players as well as those willing to enter the market. The following are the key features of the research report:

- Market structure: Overview, industry life cycle analysis, supply chain analysis.

Source: UTC

Growth Magnitude in A&D C-Class Parts Market by Region

- Market environment analysis: Growth drivers and constraints, Porter's five forces analysis, SWOT analysis.
- Market trend and forecast analysis.
- Market segment trend and forecast.
- Competitive landscape and dynamics: Market share, product portfolio, product launches, etc.
- Attractive market segments and associated growth opportunities.
- Emerging trends.
- Strategic growth opportunities for the existing and new players.
- Key success factors.

Market attractiveness of Carbon Brakes by Aircraft Type

Stratview Research has a number of high value market reports in the global aerospace & defense industry. Please refer to the following link to browse through our reports:

#### About Stratview Research

Stratview Research is a global market intelligence firm providing wide range of services including syndicated market reports, custom research and sourcing intelligence across industries, such as Advanced Materials, Aerospace & Defense, Automotive & Mass Transportation, Composites, Consumer Goods, Construction & Equipment, Electronics and Semiconductors, Energy & Utility, Healthcare & Life Sciences, and Oil & Gas.

We have a strong team of industry veterans and analysts with an extensive experience in executing custom research projects for mid-sized to Fortune 500 companies, in the areas of Market Assessment, Opportunity Screening, Competitive Intelligence, Due Diligence, Target Screening, Market Entry Strategy, Go to Market Strategy, and Voice of Customer studies. Stratview Research is a trusted brand globally, providing high quality research and strategic insights that help companies worldwide in effective decision making.
