

# Farm Equipment Market to reach valued at \$301.97 billion and Grow at a 9.6% CAGR Forecast to 2020

*WiseGuyReports.Com Publish a New Market Research Report On –“Farm Equipment Market”.*

PUNE, INDIA, September 22, 2016 /EINPresswire.com/ -- Global [Farm Equipment](#) Market is valued at \$158.92 billion in 2015 and is expected to grow at a CAGR of 9.6% to reach \$301.97 billion by 2022. In the present scenario the demand and supply ratios for the food market is not up to the mark and is witnessing a huge deficit across the globe, these factors are demanding the need for food supply. Population growth and need for the mechanization of the farming are the factors favoring the market growth. However, factors such as increasing subsidies provided by government to purchase farm equipment and support farming practices for improved quality crops inhibit the market growth.

Farm tractors segment is anticipated to be the largest market segment due to the growing demand. Planting equipment and harvesting equipment segments are likely to be the emerging market owing to the presence of large cultivation areas and less manpower. However, Asia Pacific is estimated to be the fastest growing region due to the presence of world's largest food supplier economies, i.e China and India.
