

Holter Monitors Market Segments Based On Geography, Key Vendors, Driver, Industry Challenge, Trend 2020

analysts forecast the global Holter monitors market to grow at a CAGR of 5.09% during the period 2016-2020.

PUNE, INDIA, September 22, 2016 /EINPresswire.com/ -- [Global Holter Monitors Industry](#)

Holter monitors are small, portable, and battery-powered devices that help monitor and measure the electrical activity of a person's heart continuously for 1-2 days. Physicians use these devices for monitoring ambulatory patients who are susceptible to latent life-threatening cardiac abnormalities. These devices also help in follow-up treatment for heart attack, measuring heart rate variability, identifying silent ischemia/ST segment analysis, identifying people at risk of sudden death, and detecting implantable pacemaker malfunctions.

Covered in this report

The report covers the present scenario and the growth prospects of the global Holter monitors market for 2016-2020. To calculate the market size, the report considers the revenue generated from the sales of Holter monitors.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Following companies as the key players in the Global Holter Monitors Market: GE Healthcare, Mortara Instrument, Philips Healthcare, Schiller, and Spacelabs Healthcare.

Other Prominent Vendors in the market are: Applied Cardiac Systems, Biomedical Systems, CardioNet, iRhythm Technologies, LifeWatch DigiTrack, MediComp, MidMark, QRS Diagnostic, Scottcare, and Welch Allyn.

Commenting on the report, an analyst from team said: "Healthcare facilities are trying to increase the efficiency of their services, reduce medical expenses, and improve disease diagnoses. This has fueled the demand for cardiac data management solutions that connect cardiac monitoring devices to a centralized database. These solutions help automate the processing, storage, and distribution of data collected from Holter monitors."

According to the report, factors like the rising incidence of cardiac disorders such as bradycardia, ventricular fibrillation, cardiac arrest, and tachycardia are expected to propel the market for Holter monitors in the coming years. With aging, heart muscles lose their elasticity and ability to respond to different pressure rates which make older people more susceptible to cardiac disorders.

Some points from Table of content:

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Market overview

- Top-vendor offerings

PART 03: Market research methodology

- Research methodology

- Economic indicators

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Market overview

- Market size and forecast
