

Windows Azure now available from German data centers with German data escrow

Another milestone for Microsoft Cloud Germany has been reached. triomis GmbH now offers Move to Azure Cloud Services.

DORTMUND, NORTH RHINE-WESTFALIA, GERMANY, September 23, 2016 /EINPresswire.com/ -- Named as Azure Germany starting at 09/21/2016 Microsoft offers his cloud platform Azure with infrastructure, platform and IoT services from German data centers in Frankfurt / Main and Magdeburg. The offer is available for business customers in Germany, the EU and the European Free Trade Association (EFTA).

“

The launch of Azure Germany is very important for our customers from the financial sector with increased demands on data protection and security to meet compliance regulations.”
Andreas Thurek, CTO triomis GmbH

The new services also enable strictly regulated industries drive their digital transformation successfully with cloud solutions based on Big Data and Machine learning scenarios up to Internet of Things. The independent Microsoft Cloud Germany combines the geo-redundant storage of customer data in Germany with a data trustee model. Only the data trustee controls access to customer data and is an independent company called T-Systems International with headquarters in Germany. triomis GmbH in Dortmund has been prepared for this day since 2010. Based on the extensive project experience with Azure cloud services and mobile applications triomis supports customers with special [migration offers](#) on their way into the

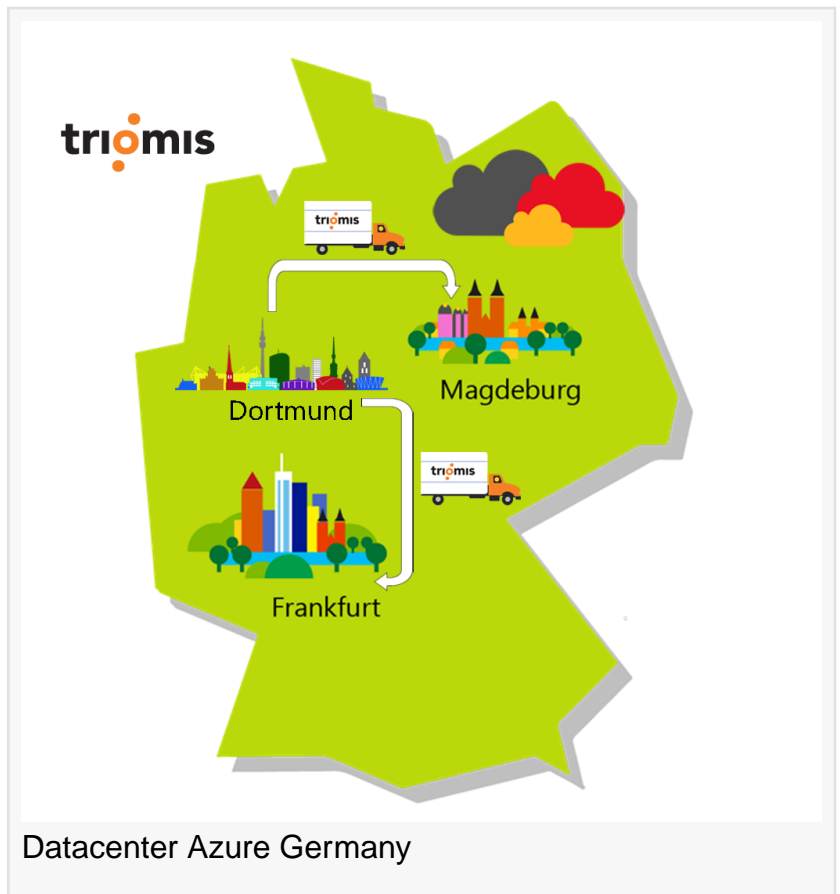

Microsoft Cloud Germany.

triomis uses the most comprehensive selection of operating systems, programming languages, frameworks, tools, databases and devices which are provided by Azure. triomis transfers not only .Net applications but also applications and apps using JavaScript, Java and Node.js and create back-end cloud services for iOS, Android and Windows devices. The Azure cloud services are based on same technologies that are used by triomis reliably for years.

"Azure allows us to help our customers to build sustainable solutions and transform their business models to the cloud.," said Andreas Thurek, CTO of triomis GmbH.

After starting Azure Germany customers can choose to continue to use public, private and hybrid cloud solutions or choose to purchase Microsoft services from data centers in Germany with control access to their data by a German data trustee. In the first quarter 2017 [Office 365](#) and [Dynamics CRM 365](#) will be available in German cloud too.
