

Global Fingerprint Sensors Industry Segments, Development, Market Key Players, Forecast Report 2027

Global Fingerprint Sensors Market, by Component (Hardware, Sensor, Software), by Application (Defense, Government, Military, Commercial) - Forecast 2027

PUNE, MAHARASHTRA, INDIA, September 26, 2016 /EINPresswire.com/
-- Industry News:

oFingerprint cards have launched its new product touch fingerprint sensor devices to serve entry-level smartphone market on June 2016.
oSynaptic has announced in year 2015 about expansion of its product "Natural ID" with small area fingerprint sensors to support high end mobile devices. This Synaptic Natural ID provides fingerprint ID with a single touch which makes it different from traditional sensors.

Key Players

- BM Cogent Inc. (U.S.)
- Crossmatch (U.S.)
- Dermalog Identification Systems (Germany)
- Egis Technology Inc.(U.S.)

Major players: 3M Cogent Inc. (U.S.), Crossmatch (U.S.), Dermalog Identification Systems (Germany), Egis Technology Inc.(U.S.), Fingerprint Cards AB (Sweden), Goodix Ltd (China), NEC Corporation"

Market Research Future

- Fingerprint Cards AB (Sweden)
- Goodix Ltd (China)
- NEC Corporation (Japan)
- Silead Inc. (China)
- Suprema Inc. (Korea)
- Synaptic Inc. (U.S.)

Objective of Fingerprint Sensors Market Study:

oTo provide detailed analysis of the market structure along with forecast for the next 10 years of the various segments and sub-segments of the Global Fingerprint Sensors market.

oTo provide insights about factors affecting the market growth.

oTo Analyze the Fingerprint Sensors Market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.

oTo provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW).

oTo provide country level analysis of the market with respect to the current market size and

future prospective

oTo provide country level analysis of the market for segment by components, by applications and sub-segments.

oTo provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market

oTo track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Fingerprint Sensors market.

Taste the market data and market information presented through more than 70 market data tables and figures spread in 110 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Fingerprint Sensors Market Research Report- Global Forecast to 2027](#)"

Segments

Segmentation by Components: sensors (optical sensors, capacitive sensors, ultrasound sensors, thermal sensors and solid-state sensors among others), hardware and software among others.

Segmentation by Application: mobile security, government, military & defense, banking, and commercial among others.

Market Scenario

The major growth driver of Fingerprint Sensors Market includes growing demand for security checks in organizations, growing importance of physical access control solution, and growing market of smartphones and tablets among others.

Hence the market for Fingerprint Sensors is expected to grow at XX% CAGR (2016-2027).

However, lack of technical awareness and technology restrictions are some of the major factors which are hindering the growth of Fingerprint Sensors Market.

Regional Analysis of Fingerprint Sensors Market:

Asia-Pacific is expected to dominate the Global Fingerprint Sensors Market with the largest market share due to growing usage of biometric devices in organizations, and growing acceptance of new technology in the region, and therefore accounting for \$XX million and is expected to grow over \$XX billion by 2027. Fingerprint Sensors Market in Europe market is expected to grow at CAGR of XX% from \$ XX million in 2016 to \$XX million by 2027. The North-America market for Fingerprint Sensors Market is expected to grow at XX% CAGR (2016-2027).

Brief TOC

1. Report Prologue

2. Market Introduction

2.1 Definition

2.2 Scope Of The Study

2.2.1 Research Objective

2.2.2 Assumptions

2.2.3 Limitations

2.3 Market Structure

3. Research Methodology

3.1 Research Process

3.2 Primary Research

3.3 Secondary Research

3.4 Market Size Estimation

3.5 Forecast Model

4. Market Dynamics

4.1 Drivers

4.2 Restraints

4.3 Opportunities

4.4 Mega Trends

4.5 Macroeconomic Indicators

5. Market Factor Analysis

5.1 Value Chain Analysis

5.2 Porter's Five Forces

The report for Fingerprint Sensors market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

About Market Research Future:

At [Market Research Future \(MRFR\)](https://www.marketresearchfuture.com), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
