PUNE, MAHARASHTRA, INDIA, September 27, 2016 /EINPresswire.com/ -- [Managed Security Services](#) Industry

Description

Wiseguyreports.Com Adds “Managed Security Services -Market Demand, Growth, Opportunities and analysis of Top Key Player Forecast to 2021” To Its Research Database

Managed security services are the services provided by an outsourced managed security service provider to maintain information security and network security. This service is provided either on the client's premises or it is outsourced to a company that specializes in networking and information system security. Managed security service providers (MSSPs) offer managed anti-virus; security monitoring; network boundary protection that includes managed services for firewalls, intrusion detection systems (IDSs), and VPNs; content filtering; information security risk assessments; incident management that includes vulnerability assessment and penetration testing; emergency response and forensic analysis; and data archiving and restoration services.
