

Mark Systems' LotVue Continues Expansion

LotVue India will provide a seamless expansion as the number of software engineers grows in 2017.

MT HOLLY, NEW JERSEY, UNITED STATES, September 27, 2016 /EINPresswire.com/ -- Mark Systems announced today the new office opening of LotVue India LLP in Hyderabad, India. LotVue India LLP is the engineering arm of LotVue, which was acquired in May 2016. LotVue is achieving accelerated growth through increased support, combined resources, and leveraging Mark Systems established customer base of residential home builders and land developers.

LotVue India will provide a seamless expansion as the number of software engineers grows in 2017. Led by Rajan Krishnamurty, Vice President of LotVue Development, and Meena Nataraj, Designated Partner, LotVue India, the team is currently focused on LotVue innovations. The goal is to also strategically position the organization as a resource in developing Mark Systems' overall product line.

“

Our goal is to bring Simple, Visual, Social and Mobile apps to serve all world markets that demand quick insights into, and simple management of any defined space.

Rajan Krishnamurty, Vice President of LotVue Development

“The acquisition and current expansion allows us to continue to grow talent and capacity, innovate with new technologies, and serve as a gateway into international markets. Our goal is to bring Simple, Visual, Social and Mobile apps to serve all world markets that demand quick insights into, and simple management of any defined space,” said Krishnamurty.

About Mark Systems

Mark Systems' IHMS is the industry's only single database home builder software suite. Mark Systems' single database architecture means that residential construction information is delivered instantly and transparently to every team member. Purchasing, scheduling, field operations, trade partners, sales office, and design center personnel all effortlessly share critical information.

About LotVue

Through the use of interactive maps, Mark Systems' LotVue apps, Lot Insight and Lot Buzz, allow developers, builders, and property managers to easily visualize lot inventory, construction progress, sales status, budget and schedule variances, architectural and other vital information.
