

Global Smart Grid Market Segmentation, Size, Strategy, Communication Technology Growth Forecast to 2027

Global Smart Grid Market Information, by Software & Hardware , by Sensor , by Storage Technology , by Communication Network (HAN, WAN) - Forecast 2016-2027

PUNE, MAHARASHTRA, INDIA,
September 27, 2016 /EINPresswire.com/
-- Market Scenario

Smart Grid is a modernized electrical grid system which purely operates on analog and digital information and communications technology. The main function of Smart Grid is to monitor, gather the data, and analyze the data, control and communication in digitalized form. Besides the one way communication in traditional grid system, smart grid system provides two way communications. Infrastructure development is one of the major factors which is driving the market of smart grid.

Major Key players

The key players in the market of Smart Grid are-

- Siemens AG (Germany)
- devolo AG (Germany)
- ABB (Switzerland)
- Cisco Systems (U.S.)
- IBM (U.S.)
- Itron (U.S.)
- S&C Electric Company (U.S.)
- Schneider Electric (France)
- Opower (U.S.)
- Silver Springs Networks (U.S.)

The Major Key Players of Siemens AG (Germany), S&C Electric Company (U.S.), Silver Springs Networks (U.S.) , Schneider Electric (France), Itron (U.S.), ABB (Switzerland)”

Study Objective of [Smart Grid Market](#)

- To provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the Global Smart Grid Market
- To provide insights about factors affecting the market growth
- To analyze the hydroponics market based on various factors- price analysis, supply chain analysis, porter's five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segment by software & hardware, by sensor, by storage technology by communication network and sub-segments.
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Smart Grid Market

Taste the market data and market information presented through more than 50 market data tables and figures spread in 110 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Global Smart Grid Market Research Report- Global Forecast 2027](#)"

Market Segmentation

Segmentation by Software & Hardware: Distribution Management System, Power System Planning & Data Management, Meters among others.

Segmentation by Sensor: Current and Voltage Sensors, Optical sensor HAN sensors among others.

Segmentation by Storage Technology: Air Energy Storage & Batteries (sodium-sulfur (NaS), nickel-cadmium (NiCd), lithium-ion technologies (Li-ion), advanced lead-acid (Pb-acid) among others)

Segmentation by Communication Network: HAN (Home Area Network), WAN.

Industry News

- In June 2016, ABB announced that they have successfully started 648 MW solar project in India.
- In February 2016, S&C Electric Company and Tantalus Corp announced that they will work together to support layered communication for grid optimization.
- In the February 2016, devolo AG announced the collaboration with Eichhoff Kondensatoren GmbH for developing new data communication product.

The reports also covers brief analysis of Geographical Region includes:

Americas

- North America
- US
- Canada

Europe

- Western Europe
- Germany
- France

- Italy
 - Spain
 - U.K
 - Rest of Western Europe
 - Eastern Europe
- Asia– Pacific
- Asia
 - China
 - India
 - Japan
 - South Korea
 - Rest of Asia
- Pacific
- The Middle East& Africa

The report for Global Smart Grid Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
