

Central and Eastern European Countries Unveil Their Air Missile Defence Programs This October In Prague

Leading air missile defence experts from Czech Republic, Lithuania, Slovakia, Hungary, Germany, Sweden, Netherlands and US will meet in Prague in October

PRAGUE, CZECH REPUBLIC, September 29, 2016 /EINPresswire.com/ -- Military forces are looking to combat the complex threats posed by a wide range of missiles and ensure the security of their own territory.

Air Missile Defence Technology

Currently, this is perhaps more prevalent in Eastern Europe than anywhere else with rising tensions being met with a demand for advances and developments in [Air Missile Defence Technology](#).

SMi's highly anticipated conference on Air Missile Defence Technology will be taking place in Prague on the 24th and 25th of October 2016. This unique conference will explore the strategies and technologies required to develop next generation capability in this vital area of national defence.

“

AMDT 2016 brings to Prague those leading and developing their capabilities in the region including the Czech Republic, Lithuania, Slovakia, Hungary, Germany, Sweden, Netherlands and US
