CHETU TO EXHIBIT AT 88TH AHIMA CONFERENCE IN BALTIMORE

Custom Background Screening Software Solutions are coming to Charm City

PLANTATION, FLORIDA, UNITED STATES, September 29, 2016 /EINPresswire.com/ -- Plantation, Fla (September 22, 2016) -- Chetu is pleased to announce that they will be attending the 2016 American Health Information Management Association (AHIMA) annual conference in Baltimore, Maryland. The event takes place on October 15th through the 17th at the

Baltimore Convention Center, located at 1 W Pratt St.

Healthcare professionals will gather at the AHIMA Convention for interactive presentations, panel discussions and open forums with the objective of providing insight to professionals across the healthcare eco-system as well as with patients. The conference will include over 50 exhibitors whose collective goals are to identify industry trends as it pertains to healthcare, connect with current business partners, and to identify solutions for healthcare staff management, quality reporting, financial planning, plus solutions for healthcare information technology.

"We are elated to attend the 88th annual AHIMA conference," says Patricia Jimenez, National Account Manager for Healthcare IT at Chetu. "Our goal is to introduce healthcare technology providers to Chetu's custom software solutions to assist in overall productivity as it relates to both patients and physicians."

"The annual AHIMA conference is an event designed specifically for the medical community to hear about new industry trends and learn from leaders in the fields of compliance, business management and technology," says Melissa Martin, President & First Chair of the AHIMA.

Contemporary topics to be covered at the conference include advances in video conferencing technology, EDI programming, and e-Rx software solutions. These topics will be presented by experts in the fields of home health, hospice, and practice management as well as professionals in the technological field.

###
