Key Highlights

The furniture & floor coverings market consists of the following two segments: furniture and floor coverings.

The Canadian furniture & floor coverings market had total revenues of \$9,994.4m in 2015, representing a compound annual growth rate (CAGR) of 2.2% between 2011 and 2015.

The furniture segment was the market's most lucrative in 2015, with total revenues of \$7,058.5m, equivalent to 70.6% of the market's overall value.

The Canadian economy exhibits some reliance on oil and persistently low oil prices are causing some to take a cautious view of the country's economic prospects. However, there is also the possibility that this could suppress housing sales which could mean that people opt to renovate or redecorate instead. If that comes to pass, the market would receive a boost.
