

NAND Flash Market Key Vendors Intel, Micron Technology, Samsung Electronics & SanDisk Analysis Forecast 2020

Analysts forecast the global NAND flash market to grow at a CAGR of 9.69% during the period 2016-2020

PUNE, INDIA, September 30, 2016 /EINPresswire.com/ -- [Global NAND Flash Industry](#)

Analysts forecast the global NAND flash market to grow at a CAGR of 9.69% during the period 2016-2020. NAND flash memory is a non-volatile storage technology that enables rapid read and write operations in memory cards. The memory cells in NAND flash memory chips are connected in a series that resembles a NAND gate. The series connection consumes less space than a parallel connection, reducing the cost of NAND flash chips. This makes the cost of NAND flash cards reasonable; they also become easily scalable to large densities.

Covered in this report

The report covers the present scenario and the growth prospects of the global NAND flash market for 2016-2020. To calculate the market size, the report considers the revenue generated from the sales of NAND flash chips to consumer electronics manufacturers and IT hardware manufacturers for mobile devices, SSDs, Smartcards, handheld players, and USBs.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Global NAND Flash Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.
