

Global Intrusion Detection System Market Size, competitive landscape, Construction, Strategy - Forecast to 2022

Global Intrusion Detection System Market Information, by Components, by Deployment (Cloud based, Infrastructure based), by End Users - Forecast 2016-2022

PUNE, MAHARASHTRA, INDIA, October 3, 2016 /EINPresswire.com/ -- Industry News

In August 2016, Symantec Corp announced the acquisition of Blue Coat a leading provider of web securities for the expansion of future cyber security system.

In July 2016, Symantec Corp announced the partnership with SSL Store for quick encryption of websites.

Key players

- McAfee (California)
- Check point (Israel)
- Corero (Massachusetts)
- Dell (U.S.), IBM (U.S.)
- Cisco (U.S.)
- Extreme Networks (U.S.)
- Symantec (U.S.)
- Metaflows, Inc. (U.S.)
- Hewlett-Packard (U.S.)

The Major Key Players are McAfee (California), Check point (Israel), Corero (Massachusetts), Dell (U.S.), IBM, Cisco (U.S.), Extreme Networks (U.S.), Symantec (U.S.), Hewlett-Packard (U.S.)”

Target Audience

- SMEs
- Cloud Security Providers
- Infrastructure Security Providers
- Security System Providers
- Cloud Service Providers

Market Segmentation

Segmentation by Deployment: Cloud based and Infrastructure based.

Segmentation by Components: Hardware & Software.

Segmentation by End Users: BFSI, IT& Communication, Aerospace & Defense, Software Industry, Manufacturing, Government, Healthcare among others.

Study Objective of [Intrusion Detection System Market](#)

- To provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the Global Intrusion Detection System Market
- To provide insights about factors affecting the market growth
- To analyze the Intrusion Detection System market based on various factors- value chain analysis, porter's five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segment by deployment, by components, by end users and sub-segments
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Intrusion Detection System Market

Taste the market data and market information presented through more than 50 market data tables and figures spread in 102 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Global Intrusion Detection System Market Research Report- Forecast 2022](#)"

Market Synopsis of Intrusion Detection System Market

Market Scenario

IDS or Intrusion Detection System is a technology which can be deployed as a device or software to monitor the network activity and system of an organization. This activity includes monitoring the malicious activity, policy violations, unauthorized access to the system among others. As the security proliferation in the organizations are increasing, the market of IDS is also increasing. Global IDS market has been valued at US \$XX billion in the year 2015 which is growing with the CAGR of XX% and expected to reach market size of US\$ XX billion by the end of forecasted period. Security loopholes and weak IT infrastructure in the organization are some major factor which is giving fuel to the market of IDS.
