Two, if the tool supports the version of the Outlook email platforms that they work on and third, is the result accurate and reliable. We are proud to state that, these 3 major points that any software application available online for IT users should take care of is successfully satisfied by our outstanding software to import OST to PST format. This time the update focus on the speed and also accuracy of OST file conversion process. Users are our real strength and it's their feedback and support that lead us to new heights of invention and success.”

Definition for email conversion process was a little hazy before Jagware steps into the data conversion industry. And now, the once complex process of OST to PST conversion is easily carried out even by novice users. Corruption issues with OST file often keep data access at stalk for Exchange users and thus, an effective solution to convert OST file to Outlook is a must have tool for Outlook users. The qualities like the ability to convert large size OST file to PST and perfect process execution free of Outlook dependency or any third party framework, proves why this tool have higher number of downloads than any other free OST file conversion tool online.

The senior product manager, Jagware was quoted as saying “Outlook management and email conversion tools always grab user interest and this is the reason why we always make our tool for OST file conversion updated. Outlook users who leave the existing Exchange server platform always prefer to take their OST file along with them to the new email platform. The issue behind such improper way of carrying specific file format to other platform is the loss of data. Some content in OST file, like contacts etc. can be opened only using the application that created it. Without realizing this fact people tend to take their information with them without converting the file format. To avoid such trouble of data inaccessibility and eventual data loss, it is suggested to convert OST to PST of Outlook and carry the data along. To help users in professional data conversion process, we developed Jagware OST Converter.
