

# Global Aerospace Window Frame Market Likely to Grow at 4.7% CAGR Over the Next Five Years (2016-2021):Stratview Research

*An Extensive Market Research Report from Stratview Research includes Trends, Forecasts, Competitive Analysis and Strategic Growth Opportunities.*

DETROIT, MI, USA, October 7, 2016 /EINPresswire.com/ -- Stratview Research announces the addition of a new market research report on [Global Aerospace Window Frame Market](#) by Aircraft Type (Narrow Body, Wide Body, Very Large Aircraft, Regional Aircraft, and General Aviation), by Platform (B737,B747, B777, B787, A320 Family, A330 / A340, A350XWB, A380, B737Max, B777x, A320 Family neo, E175, C Series, and Others), by Material Type (Metal, Composites), by Product Type (Cabin Window Frame and Cockpit Windshield Frame), and by Region (North America, Europe, Asia-Pacific, and RoW), Trend, Forecast, Competitive Analysis, and Growth Opportunity: 2016 – 2021.

This market report from Stratview Research studies the aerospace window frame market over the period 2010 to 2021. The research report provides detailed insights on the market dynamics to enable informed business decision making and growth strategy formulation based on the opportunities present in the market.

## The Global Aerospace Window Frame Market: Highlights

Stratview Research foresees a strong growth of 4.7% (CAGR) in the aerospace window frame market in the next five years (2016 – 2021), which offers an opportunity to the aerospace industry players to align themselves with the market growth.

There are a number of factors bolstering the growth of window frame market in aerospace industry. The author of the industry report cited increasing commercial and regional aircraft deliveries and focus on lightweight frames to achieve fuel efficiency and carbon emission reduction are the key drivers in the global aerospace window frame market.

Wide body aircraft segment expected to be the growth engine of the window frame market  
The author stated that the wide body aircraft segment is expected to remain the growth engine of the aerospace window frame market during the forecast period. North America is expected to remain the dominant region in the aerospace window frame market due to the presence of the major commercial aircraft manufacturer, Boeing. Among the frame types, composites based window frames are likely to gain traction during the forecast period due to their excellent performance.

The key window frame manufacturers are GKN Aerospace, LMI Aerospace, Nordam Interiors &

Structure Division, Otto Fuchs KG, ACE (Advanced Composite Engineering), and SIFCO Industries Inc.

New product development, collaboration with OEMs, and long term contacts are the key strategies adopted by the key players to gain competitive edge in the market.

## Report Features

This industry research report from Stratview Research provides market intelligence in the most comprehensive manner. The report structure has been kept such that it offers maximum business value. It provides critical insights on the market dynamics and will enable strategic decision making for the existing market players as well as those willing to enter the market. The following are the key features of the research report:

- Market structure: Overview, industry life cycle analysis, supply chain analysis.
- Market environment analysis: Growth drivers and constraints, Porter's five forces analysis, SWOT analysis.
- Market trend and forecast analysis.
- Market segment trend and forecast.
- Competitive landscape and dynamics: Market share, product portfolio, product launches, etc.
- Attractive market segments and associated growth opportunities.
- Emerging trends.
- Strategic growth opportunities for the existing and new players.
- Key success factors.
