PUNE, INDIA, October 7, 2016 /EINPresswire.com/ -- Heavy Trucks On-board Diagnostics System Market

Summary

With the improving sales of OBDs, OEMs are emphasizing on the integration of electronic systems in the overall functionality and operations of vehicles. In the US, it is expected that by the end of 2016, 40% of the vehicle value cost would account for electronic systems and components. With the advent of electronics in vehicles, there will be a constant need for systems such as OBD that can monitor and measure complex and advanced electronic components.

Although the US and Europe are the dominant markets for heavy duty trucks OBD systems, developing countries in APAC are also gaining traction as OEMs are gradually introducing advanced electronic components such as control units and electronic ignition systems in these countries.

Wiseguy's analysts forecast the Global Heavy Trucks On-Board Diagnostics Systems Market to grow at a CAGR of 3.27% over the period 2015-2019.
