

Outlook Of Wind Power Industry Report On South Africa Trend, Market Growth, Share, Demand and Supply Forecast 2030

Wind Power in South Africa, Market Outlook to 2030, Update 2016 - Capacity, Trends, Regulations and Company Profiles

PUNE, INDIA, October 10, 2016 /EINPresswire.com/ -- [South Africa Wind Power Industry](#)

Summary

"Wind Power in South Africa, Market Outlook to 2030, Update 2016 - Capacity, Generation, Levelized Cost of Energy (LCOE), Investment Trends, Regulations and Company Profiles" is the latest report from , the industry analysis specialists that offer comprehensive information and understanding of the wind power market in South Africa.

The report provides in depth analysis on South Africa renewable power market and South Africa wind power market with forecasts up to 2030. The report analyzes the power market scenario in South Africa (includes conventional thermal, nuclear, large hydro and renewable energy sources) and provides future outlook with forecasts up to 2030. The research details renewable power market outlook in the country (includes wind, small hydro, Wind Power and solar PV) and provides forecasts up to 2030. The report highlights installed capacity and power generation trends from 2006 to 2030 in South Africa wind power market. A detailed coverage of renewable energy policy framework governing the market with specific policies pertaining to wind power is provided in the report. The research also provides company snapshots of some of the major market participants.

- An overview on South Africa renewable power market, highlighting installed capacity trends (2006-2030), generation trends(2006-2030) and installed capacity split by various renewable power sources in 2015.

- Detailed overview of South Africa wind power market with installed capacity and generation trends and major active and upcoming wind projects.

- Deal analysis of South Africa wind power market. Deals are analyzed on the basis of mergers, acquisitions, partnership, asset finance, debt offering, equity offering, private equity (PE) and venture capitalists (VC).

- Key policies and regulatory framework supporting the development of renewable power sources in general and wind power in particular.

- Company snapshots of some of the major market participants in the country.

Reasons to buy

- The report will enhance your decision making capability in a more rapid and time sensitive manner.

- Identify key growth and investment opportunities in South Africa wind power market.

- Facilitate decision-making based on strong historic and forecast data for wind power market.

- Position yourself to gain the maximum advantage of the industry's growth potential.

- Develop strategies based on the latest regulatory events.

- Identify key partners and business development avenues.

- Understand and respond to your competitors' business structure, strategy and prospects.
