Fluorochemicals are chemical compounds that contain fluorine. Fluorine is a highly reactive element and is derived from sources like fluorite (also known as fluorspar), fluorapatite, and cryolite. Fluorine has a number of desirable chemical properties like high electronegativity, and reactivity and tendency to form stable compounds, which make it appropriate for various applications in the industrial, commercial, and medical sectors. It is the most electronegative and the most reactive of all elements.

Research analysts forecast the global fluorochemicals market to grow at a CAGR of 4.52% in terms of volume during the period 2016-2020.

Covered in this report

The report covers the present scenario and the growth prospects of the global fluorochemicals market for 2016-2020. To calculate the market size, the report considers the sales volume of fluorochemicals to the end-user industries like refrigeration, aluminum, and pharmaceuticals.

The market is divided into the following segments based on geography:

- APAC
- Europe
- North America
- ROW

Global Fluorochemicals Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- 3M
- AGC
- Chemours
- Honeywell International
- Solvay

Other prominent vendors

- Arkema
- Daikin Industries
- Dongyue
- Gujarat Fluorochemicals
- Mexichem
