Summery

According to researchers, the Global [Lubricating Oils](#) market is accounted for \$38.5 million in 2016 and is expected to reach \$47.7 million by 2022 growing at a CAGR of 3.1% from 2015 to 2022. Factors such as growing automobile industry, rapidly increasing industrialization & modernization of industrial machinery and globalization of technologies are propelling the market growth. Demand for low viscosity fluids in the automotive industry, deep sea marine lubricants, and recycling of used lubricants are expected to offer major growth opportunities for the lubricant manufacturers. Manufacturing sectors such as 3D printing and medical devices will further complement lubricants industry. However, the market faces a few restraints like volatility in raw material prices and high prices of synthetic & bio-based lubricants. Declining crude oil output, strict environmental regulations and aqueous toxicity of conventional products are expected to hamper market growth. Market would face unprecedented challenges caused by new engine oil specifications and new engine tests.

 - o Industrial gear oil
- Greases
 - o Industrial Greases
 - o Vehicle & Equipment greases

End Users Covered:

- Transportation
 - o Passenger vehicle
 - o Commercial vehicle
 - o Aviation
 - o Marine
 - o Railways locomotives
- Industrial Machinery & Equipment
 - o Metalworking fluids
 - o Industrial gearboxes
 - o Hydraulic systems
 - o Turbines
- Power Generation
 - o Municipal
- Construction
- Metallurgy & Metalworking
- Mining
- Food & Beverage
- Cosmetics & Toiletries
- Chemical Industry
- Paper & Textile

What our report offers:

- Market share assessments for the regional and country level segments
- Market share analysis of the top industry players
- Strategic recommendations for the new entrants
- Market forecasts for a minimum of 7 years of all the mentioned segments, sub segments and the regional markets
- Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)
- Strategic recommendations in key business segments based on the market estimations
- Competitive landscaping mapping the key common trends
- Company profiling with detailed strategies, financials, and recent developments
- Supply chain trends mapping the latest technological advancements
